PATENT PUMP. A BALDING'S

PATENTED AUGUST 8, 1865.

MANY thousand of them have been during the past four years, and shid prove all frequalities on examination it is a Puncp which is ullimately destite supercede all other Pumps now in use, the simple fact—first, the cylinder is mad solid flint glass, and it undoubtedly will one hundred years, and still be good as exsected, it will never give any bad taste the water, or rust it. Third, it will never the province of the second of wear out, so as to put the working part out of order. Fourth, the Planger working in glass, it will last as long as five in Iron or wood. Fifth, the valves are made of glass, and are so placed that it is impossible for them to get out of order. Sixth, the conducting pipe is manufactured of whought iron, galvanised works or making it perfectly free from manufactured of whought Iron, galvani inside and out, making it perfect it free front it was been the no water sands in the piper with in summer or freeze in whiter, it requires no priming to start it. Eighth is the best hand fire engine ever invented, will force the water from any common were cistern to the tup of the highest dwell at the rate of twenty gallous per mint Ninth, its whole construction is so aim and complete that renders it less liable to out of order than any pump yet inventant makes it the chapest on the contine When all its qualities are fully understood When all its qualities are fully underst she will be without it. It will save its

property.

Having established a factory in the city Memphis, Tenns, for the manufactory of the Pumps, we are now prepared to farnish, wholesale and retail, to all parties engaged, wishing to engage in the business. Prices for this Pump, Complete: For Pump 16 feet long, \$1 50 per foot...... \$2
